# Bi-Fold Doors are an innovative way to transform your room into something truly unique.

The new **Imagine Bi-Fold Door** is a complete step change. Launched by the UK's leading designer and manufacturer of window and door systems - The VEKA UK Group - the attention to detail in this range is unparalleled. Its aesthetics, security measures, design flexibility and a robust insurance guarantee all combine to make it a world-class product.

Blurring the lines between where a home ends and a garden begins, **Imagine Bi-Fold Doors** create unique living spaces as versatile as they are beautiful. They are a stunning alternative to French or Patio Doors and can be installed so that the doors sit inside or outside the property when folded back - the choice is yours. Of course, as well as being a beautiful way to bridge the gap between your home and garden, they can also be used to separate rooms within your home creating a truly unique and adaptable space.

The **Imagine Bi-Fold Door** is a traditional sliding door that can be used to separate your home up to the garden.

## Warmth in, keep the cold out

Imagine Bi-Fold Doors is designed to offer you the perfect door to keep your home warm and comfortable. It is available in a range of colours and woodgrains, and can be specified with triple glazing and can be specified with a U-Value of below 1.0 (the lower, the better) meaning that **Imagine Doors** will help you keep the warmth in and the cold out.

Our **Imagine Bi-Fold Door** range affords you a warm and comfortable space with complete peace of mind. **Imagine Bi-Fold Door** achieves a DSER 'A'-rating, which is the highest available for doors. This door can be specified with triple glazing and can be specified with a U-Value of below 1.0 (the lower, the better) meaning that **Imagine Doors** will help you keep the warmth in and the cold out.

It demonstrates how well parts of a building transfer heat. The lower the U-Value, the better the thermal performance of the window or door.

So, you can see that the **Imagine Bi-Fold Door** conserves energy very well.

By conserving energy, it means less heat escapes through these doors, so you need to worry about spending as much on your energy bills.

## Pick a colour

There is a huge range of colours and woodgrains for you to choose from for your **Imagine Bi-Fold Door**. You might choose to go for classic style in Cream or White, or lean toward more modern and contemporary aesthetics with timeless Black. You could even put a stamp of your own personality on the door with Green or Blue tones.

Our woodgrain effects are some of the most realistic in the industry, meaning they are virtually indistinguishable from real timber.

Work with your installer to select the perfect colour or woodgrain so you can be sure that the result is a stylish door as unique as you and your home.

Your installer will show you the many colours and woodgrains available and advise on the best option for your home, but ultimately the choice is yours!

## Safe as houses

Our door has been meticulously designed to make it one of the most secure doors around. Its carefully engineered features offer smooth operation, easy opening and shutting and locking. Again, these doors offer the very best in security and style. The door looks combined with the ultimate in security to keep your home safe and stylish.

The door features for the **Imagine** range, The VEKA UK Group has been securing the UK's homes for more than 150 years. The door meets the security requirements of **British Standard PAS 24**, the range's most advanced. The range is also approved by the highly respected **Secured by Design**® which is managed by the Association of Chief Police Officers (ACPO) and awarded only given to those products which have been designed to prevent burglars from getting in and getting out crime.

# The ERA five star guarantee

By fitting high-security ERA components on our range, we are proud to be able to cover our products with the UK's most comprehensive home security guarantee.

Five major benefits to homeowners:

### Savings on the cost of your home insurance

Fitting doors with the highest levels of security means you can save money on your home insurance, year after year. Most insurers recognise that having high security hardware on your doors and windows reduces the risk of forced entry, therefore resulting in reduced premiums.

### 24/7 help

The Five Star Guarantee gives you access to a FREE call out service that operates 24 hours a day, 365 days a year.

You will have the reassurance of knowing that in the unlikely event of a forced entry through an **Imagine Bi-Fold Door**, someone will always come to secure your property.

### Up to £1,000 excess paid

The quality and reliability of our components and the security provided by them is such that we guarantee them against forced entry for 10 years. We will even pay the excess on any home insurance claim due to the failure of one of our products - so you can rest assured that you're covered.

### Up to £1,000 towards a repair or replacement

We are so confident that the **Imagine Bi-Fold Door** will outwit any would-be burglars that, if the door fails, we will pay up to £1,000 towards the cost of replacing or repairing it.

### A £1,000 cheque to compensate you

In the unlikely event of a break-in succeeding through the failure of an Imagine ERA Five Star Guaranteed door, you will be given a cheque for £1,000 to compensate you for the inconvenience caused.

Security

Simply choose from a range and we will provide you with a door worth up to £5,000 of bonus.

## Smooth ope

The designers of the Imagine Bi-Fold Door drawing board with this system, making sure they should include ...and they didn't rest until they were satisfied with the results.

One of the priorities for this door was to ensure it would slide with such precision, that it would slide with a light touch. It glides effortlessly but is designed to offer the continuous performance for many years to come.

Fully adjustable hinges and reversible operation are just some of the many details that make this an incredible door.

The Imagine Bi-Fold Door showcases attention to detail, including the precision engineering that keeps the doors in place and prevents them from sagging when opened. Handles are low profile so they are easy to reach and are designed to be resistant against each other, meaning minimal
